

Table 1: Attack performance using the random pattern. The attack performance is evaluated according to AO/SR on GOT-Val.

Perturbations used to perform attack	Untargeted Attack		Targeted Attack	
	AO	SR	AO	SR
Trained Perturbations	0.153	0.123	0.840	0.890
Random Pattern	0.736	0.871	0.153	0.118

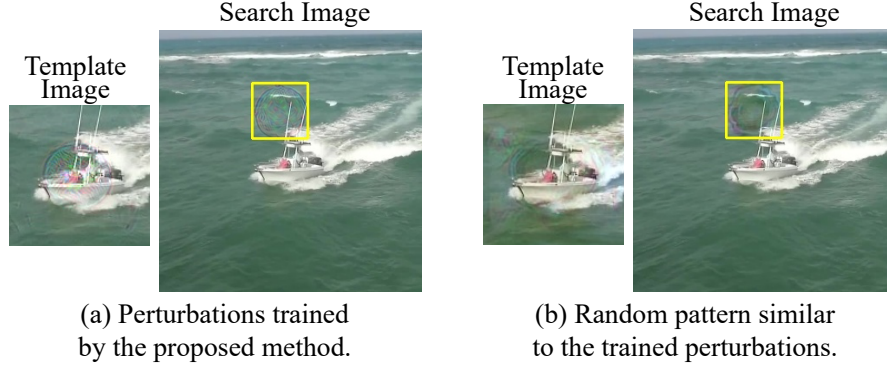

Figure 1: Visualization of the random pattern.

Untargeted AO, SR: 0.7355267789379769, 0.8707800327017409
Targeted AO, SR: 0.15291608894028702, 0.11806290276041166
